RUBIN

RUBIN'S STORY

A clean, tailored look is achieved with the round and rectangular chandeliers, or make a more playful, fanciful statement by clustering pendants together to create a look that's reminiscent of a floral bouquet.

VINTNER

F2960/5 SN / Vintner 5-Light Chandelier

VINTNER'S STORY

Wine glass-shaped, Opal Etched glass shades inspired the Vintner Collection's name and are finished with a beautiful ripple accent at the base. The sweeping body design is achieved by using smaller arms at the top and slightly larger arms below. At the transition point, a decorative sphere detail acts as a perch for each glass shade.

LUMIÈRE

F2957/4 DWO/ORB / Lumière Linear Chandelier
David Meaux Photography

LUMIÈRE'S STORY

Based on French countryside influences and a hand-crafted, artisan aesthetic, the Lumière Collection is rich in texture. Cross-hatched, natural oak wood, pressure treated to avoid cracking over time, is coupled with Seeded glass and rope details to complete the look. Lumière is also offered in a clean-lined option without the cross-hatched wood.

Fitz Interiors, Tony Moody

ETHAN'S STORY

The Ethan Collection is a contemporary take on the strong verticals and horizontals of the elegantly simple, Asian influences of the Prairie style. The dark Antique Forged Iron finish contrasts dramatically with the Brushed Steel candle tubes and sleek Clear glass surrounds, which ingeniously can all be removed and run through the dishwasher to keep them sparkling clear.

ARRAMORE LED

ARRAMORE'S STORY

Inspired by garden gate scroll work, the Arramore Collection's modern silhouette is enhanced by integrated LED halo rings grazing down the delicate decorative pattern. The two wall sconces feature advanced, warm-on-dim LED technology that warms in color when dimmed, going from 2700K to 2200K. Damp/Wet rated for use in outdoor living spaces, the Arramore is equally well suited for indoor spaces.

SOROS

SOROS' STORY

ARIS

ARIS' STORY

The movement and warm glow of the thick Amber Swirl Art glass is the central design element of the transitional Aris Collection. Inner cylinders of White Opal Etched glass give the illusion of a candle glowing behind the dramatically slumped surface of the outer art glass panels.

KINCAID

KINCAID'S STORY

The Kincaid Collection is modern and warm, featuring a strong metal frame in a soft Brushed Steel finish, which forgoes the traditional round construction with unique, flat arm supports instead. The frame's clean lines complement the drum-shaped Opal Etched glass shades.

The Colonial inspiration is clear in the design and the name of the Standish Collection—after Myles Standish who arrived in Plymouth on the Mayflower. The simple and delicate curves reinforce the Colonial styling and complement the tulip-shaped, glass shades.

DRAWING ROOM'S STORY

The Drawing Room Collection is inspired by the Edwardian era, with the overlapping arch motif and fluted detailing found both in the pressed Amber Scavo glass bowls and the die-cast aluminum fitters. The fretwork elements draw on traditional British architectural themes.

STIRLING CASTLE

STIRLING CASTLE'S STORY

The Stirling Castle Collection is inspired by the Medieval torches of ancient Europe where the caged font would have been used to house the open flame. We added beautiful Excavation glass and an overlapping Gothic arch that gently diffuse the light.

EL NIDO

EL NIDO'S STORY

Spanish for "the nest," the El Nido Collection's name and inspiration is clearly interpreted in this contemporary design. Flat arms extend and overlap into a geometric bowl shape, forming a nest upon which the Striated Ivory glass shades rest. The overall silhouette has clean lines while still delivering the desired drama.

TABBY

TABBY'S STORY

Marrying an elegant spherical silhouette with the look of exposed lamping, the Tabby Collection is a modern update to a classic pendant. Two different silver leaf techniques are used to produce either a Dark Brown or True Silver Mercury glass effect. The spun socket cup adds an extra special detail in the transition from the glass shade to the bulb.

TORI

F2958/3 SN / Tori Pendant

TORI'S STORY

The subtle silhouettes of the modern Tori Collection become infinitely more elegant with the ombré effect. Through a hand-dying process, ombré is achieved when rich colors softly fade to white, which is difficult to accomplish as evenly as we do, knowing light will be shining through the fabric. Choose from two included finials — the metal tassel or sleek metal cap.

BOTANIC'S STORY

With both masculine and feminine influences, the transitional Botanic Collection is a study in contrast. The spun metal drum captures the richness of an antique patina with natural variations. Then, elevating the piece is a dynamic Clear Pressed glass diffuser with a subtle floral gesture, which is then highly polished to generate breathtaking sparkle.

KENNEY'S STORY

The transitional Kenney Collection is an updated take on a classic, mid-century modern design in our new Sunrise Silver finish. A dual-layered, geometric motif is stamped out of the steel frame which floats over a white linen shade. The dramatically tall sconces feature integrated LEDs emitting gentle light, perfect for a media room requiring soft accent lighting.

MADDISON

MADDISON'S STORY

With understated crystal, the Maddison Collection has clean, elegant lines. A cast metal detail is the transition between the Opal Etched glass shades and the thick, clear crystal detail at the base of each light. Inspired by modern perfume bottles, the crystal is chunky and robust in this transitional design. Cleverly hidden hardware maintains the clean lines.

ROUEN

ROUEN'S STORY

Inspired by the French city, the Rouen bath Collection is as beautiful and refined as its namesake. Subtle Art Deco-Inspired crystal accents anchor the base of each light, while tapered closed-bottom shades hide the lamping. An elegantly raised step-out detail is seen in the crystals, backplates and arms. Cleverly hidden hardware ensures the clean lines aren't interrupted.

BENTLEY'S STORY

Clean and crisp lines characterize the popular Bentley Collection – now offered in both Chrome and Satin Nickel. The arms are off-set from the backplate, allowing the concentric motif on the face of the backplate to serve as a design feature. The fitters have the look of a turned spindle and, when coupled with the clean lines of the glass shades, become a modern classic.

ARIS

ARIS'S STORY

The movement and warm glow of the Amber Swirl art glass is the central design theme of the transitional Aris Collection. Inner cylinders of White Opal Etched glass give the illusion of a candle glowing behind the dramatically slumped surface of the outer art glass panels.

OL11302 BK-LED / Londontowne LED Wall Lantern

LONDONTOWNE'S STORY

The wall lanterns of the Londontowne Collection boast 16 panes of glass framed with architectural details to complement the chamfered edges of the roof line. Dense bubbles in the Clear Seeded glass subtly obscure lamping. Made of a proprietary StoneStrong composition (with a 5-year warranty), the exterior has outstanding strength and durability to withstand harsh elements. Offered with incandescent or integrated LED lamping.

LUMIÈRE

p.172 / Indoor Collection

LUMIÈRE'S STORY

Based on French countryside influences and a hand-crafted, artisan aesthetic, the Lumière Collection is rich in texture. Natural oak wood (pressure treated to avoid cracking over time) is coupled with Seeded glass to complete the look. Lumière is also offered in an all metal option without the cross-hatched wood.

WHITAKER

WHITAKER'S STORY

The tailored, rectangular shape of the Whitaker Collection gives it a wholly unique aesthetic. The hinged and latched front panel adds a historical reference and also makes relamping easy. The Clear Seeded glass subtly obscures the lamping, diffuses the light and helps hide dirt.

HERALD

HERALD'S STORY

The Herald Collection is rich with heritage and design details, like the vented crown, curved piping extending from the backplate and gently tapered glass panels. The combination of our new Antique Bronze finish, Clear Seeded glass panels and candelabra lamping celebrate this period-inspired, yet universal design.

F3163/2 PSW-LED / Kellen 2-Light Foyer Chandelier

LED: LONG LIFE ENERGY EFFICIENCY DESIGN FREEDOM

Feiss uses innovative LED technology to develop original forms and detailed decorative designs that would be impossible to achieve with traditional lamping. We use three core terms to describe the performance of our LED fixtures:

LIGHT OUTPUT (in Lumens)

Measured in lumens, Light Output is the measure of the amount of visible LED light (to the human eye) from a light source. The higher the lumen rating, the "brighter" the light source appears.

Lower Lumens — Higher Lumens

COLOR TEMPERATURE (in Kelvin)

Color Temperature, measured on the Kelvin scale, defines the color appearance of LED light. Lower numbers like 2700K produce warm, yellow light. 4000K is a neutral white light and 5000K produces a cool, crisp white or blue light.

2700K Warmer Light — 5000K Cooler Light

COLOR RENDERING INDEX (CRI)

CRI is a measure, on a scale of 1 to 100, of how accurately a light source presents colors when compared to natural light or incandescent light. Most of our LED fixtures have 80–90 CRI.

60+ CRI Good Light Quality — 70+ CRI Better Light Quality — 90+ CRI Best Light Quality

With over 300 Feiss LED fixtures to choose from, here is a small sampling of our LED product offering:

LED INNOVATION THAT WARMS WHEN YOU DIM

WOD

The LED module featured in many Feiss products was specially designed – and used exclusively – by Generation Brands. It features a thick piece of clear optic crystal glass with a contoured shape that creates glare-free, evenly-distributed, beautifully-diffused light.

Our LED module features innovative Warm-On-Dim technology, which creates warmer light as it is dimmed, going from a crisp, cool, white light to a soft, warm, candle-lit glow. It also boasts an outstanding 90+CRI, features a more reliable lifespan with the use of driverless AC technology, and dims smoothly to 10% with ELV and TRIAC dimmers.
